aspex

CCTV

Provide a safe place for your students and staff

- Deterring theft of property and belongings
- Deterring anti-social behaviour
- Real-time monitoring
- Evidence gathering

Systems Integration

Integrating multiple security systems and a 3rd party applications such as BMS (building management system), ID management systems, hotel PMS systems, ID card printing, and many more
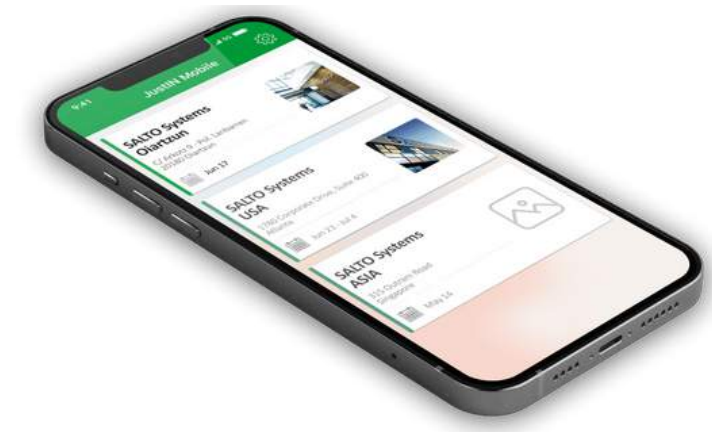

Control Panel

Where possible control units are centrally located and cabling run out to each access point. This reduces the number of 230v fused connection units, RJ45 data outlets, and fire alarm interfaces thus giving a significant saving to our customers

ProAccess Software

- Web-based building management platform
- Easy, fast & secure to deploy/ install in any building
- In event of security incident, activate real-time lockdowns associated to selected areas
- Automatic key assignment
- Individual buildings can be run by own managers, controlling access rights

aspex

Service support

Maintenance and service support is critical to make sure your security systems continue to work effectively. Regular maintenance support is recommended for reassurance and this may be a requirement for your insurance policy or other compliance purposes.

Our support contract benefits you from a choice of priority services offered by our skilled and dedicated engineers, including priority 24/7 support, reduced call-out charges and proactive support optimising your system's performance.
Experts in securing your place

We are SSAIB accredited, a mark of excellence in our industry, and we are approved partners of renowned security brands as well as being a Platinum Inspired Business Partner of Salto.

We are also an ASDA (Automatic Door Suppliers Association) member. ASDA represents reliable companies trading in installation, maintenance and service.
